# YOUR SIX-MONTH PLANNER

---

CREATED, DESIGNED & WRITTEN BY  
CYNTHIA G. BOYER, FOUNDER/OWNER  
GOD'S VIRTUOUS WOMEN ENTREPRENEURS.

As a Woman of God and Entrepreneur, I naturally have a song in my heart that I want you to hear.

It is my ultimate goal to help you to write, create, arrange and produce your own song as you journey through this world called Entrepreneurship, shining brilliantly as you roar to your destiny!

And so it is that I not only share my great success, my abundance, my harvest, my brilliance, and my knowledge of business which comes from the Lord, but I gift to you what God has gifted me.

*Thank You Jesus.*

“Look out into the Universe and See Your Prosperity”

With your mountain moving talents, a college degree is not required of you.

No, you will never need a college degree to tell or show someone just how brilliant and intelligent you are because when you speak, they know.

You are uniquely gifted with some of the most incredible gifts that education simply just cannot buy nor can a professor teach.

That is why it is wise for you to get excited, raise your level of energy and take the steps of faith towards building your dynasty!

It is time for you to fully utilize, as you recognize your awesome potential, your sensational gifts from God every day that you live; first, to always bring Him glory and then to be fulfilled and rewarded by creating carefully and slowly, intelligently and prudently with decency and in order, your very own businesses.

*You Are A Woman of Excellence!*  
*You Are An Entrepreneur!*

**Let's Plan Your Business!**

---

# CREATE AND DESIGN YOUR BUSINESS

## Let's Get Started!

- When you are ready to plan your business use your calendar, beginning with July. Carve out a window of time and set it aside to plan your achievements.
  - Write your daily, weekly and/or monthly to do list, always with thanksgiving, to help you stay on track with your business goals.
  - Be crystal clear about your goals. Create times and dates for when you want to accomplish each goal.
-

# WRITE YOUR GOALS

Make a real commitment to yourself and write down all of your goals. This is the moment you begin to write your story of success.

When you make a real commitment to write down your goals you are preparing for your success. This is where you begin to see your greatness unfold and this is exactly where your success begins. This is the stepping stone to impacting the lives of those around you and those you have yet to meet.

# READ YOUR GOALS

When you have written your goals, it's time to read your goals.

Reading your goals will help you to focus on all the things you plan and want to accomplish in your business. Think of your written goals as your compass that will help to guide and propel you into a harvest overflowing with abundance and prosperity.

# REACH YOUR GOALS

After reading your goals, it is now time for you to passionately do what you love to reach your goals.

Along with your attributes of worth, value, honesty and high ethical and moral standards, you possess a bevy of awesome tools that include faith, knowledge, understanding, empowerment, strength, courage and confidence just to name a page.

**Write Your Goals, Read Your Goals, Reach Your Goals!**
